What does it take to become a great dancer?

Coaching, followed by practice, practice and more practice. Weekend social parties are where everything you've learned at your group and private lessons are put to the real test. When things don't quite work out as you expected, don't be discouraged; ask an instructor for help. This way you can retain what you've learned longer and before you know it, you're well on your way to becoming a great dancer.

Practice makes perfect.
